

Difficulty Level: ★★☆☆☆

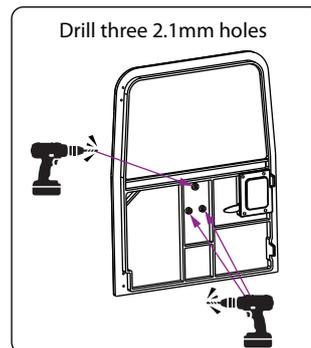

## INSTALLATION MANUAL

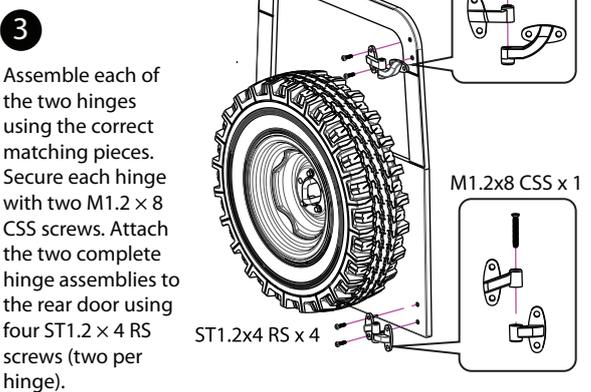

Parts Included:	Qty.
(1) Spare Wheel	1
(2) 1.9" Mileage Classic Tire #BRTR19006	1
(3) Handle	2
(4) M1.2x8 CS Screw	2
(5) M2x9 Scale Screw #BRPROB-06BK	6
(6) Rear Door	1
(7) Door Locking Plate	1
(8) Top Mount	1
(9) Bottom Mount	1
(10) Rear Window	1
(11) ST1.2x4 RS Screw	8
(12) U-shaped bracket	1
(13) Door Hinge W3	1
(14) Door Hinge W4	1
(15) Door Hinge W1	1
(16) Door Hinge W2	1
(17) D3x4 Spring Plunger	2
(18) Rear Door Latch	1
(19) 2.1mm Drill Bit	1
(20) 1.0mm Drill Bit	1

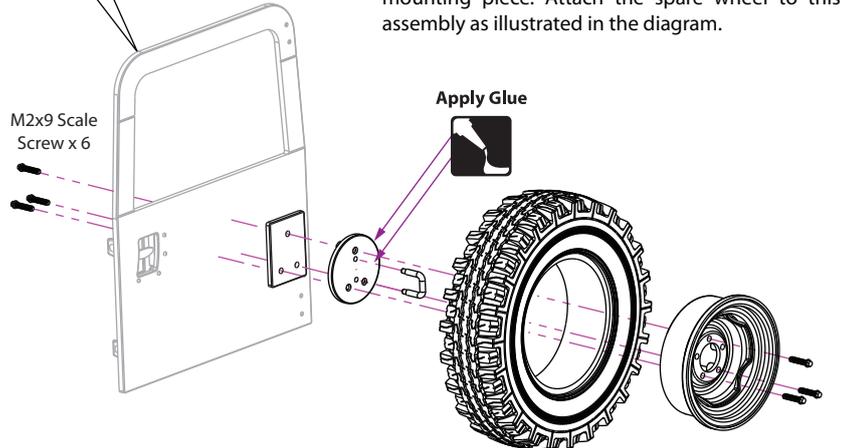

**1**  
Glue the rear door pieces together and the clear window piece into position as shown in the diagram.

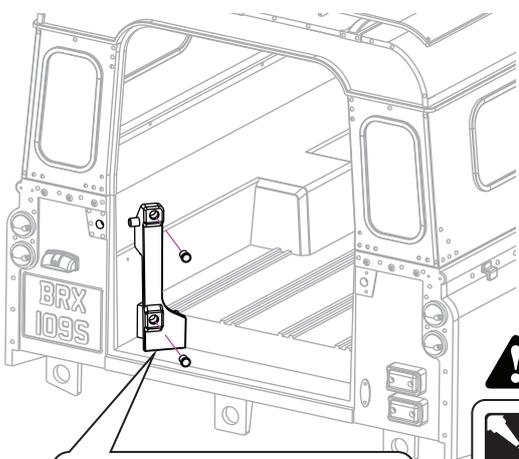

**2**  
Using the supplied 2.1mm drill bit, carefully drill three holes at the marked locations on the rear door.

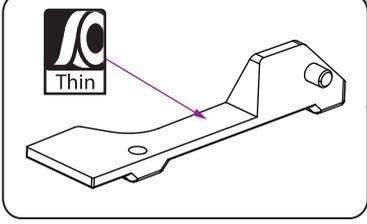

**3**  
Assemble each of the two hinges using the correct matching pieces. Secure each hinge with two M1.2 × 8 CSS screws. Attach the two complete hinge assemblies to the rear door using four ST1.2 × 4 RS screws (two per hinge).

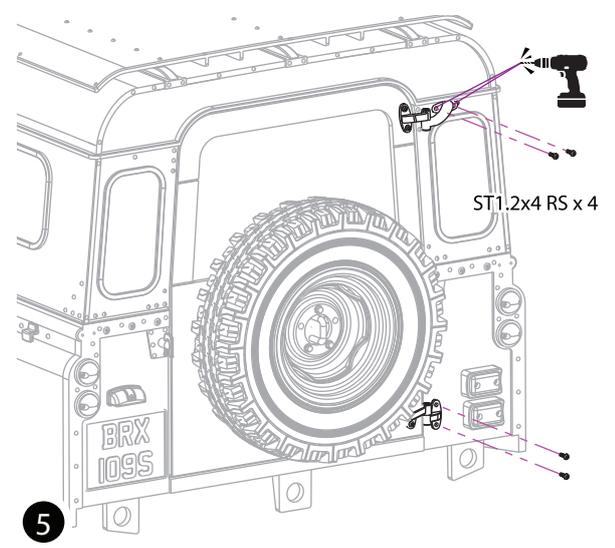

Glue the small U-shaped bracket into the circular mounting piece. Attach the spare wheel to this assembly as illustrated in the diagram.

**4**  
Insert the two D3 × 4 mm spring plungers into the rear door latch component. Glue the completed rear door latch assembly to the rear bed/body section at the indicated position.

**!**  
Only use this rear door latch if you are building the Wagon version. Attach the rear door latch with double-sided tape (thin) to the rear bed so you can rebuild the body into a convertible truck later. Or, you may choose to glue it on but you cannot go back to a building a convertible truck.

**5**  
Position the assembled rear door into the door recess/opening on the main body. While holding the door in place, carefully drill two 1.0 mm pilot holes at the top hinge mounting positions. Secure the door to the main body using four ST1.2 × 4 RS screws (two per hinge).
